**Cuvinte cheie:** vicus militar, producția ceramică, *terra sigillata*

**Key words:** military vicus, pottery production, *terra sigillata*

**Abstract:** *The archaeological research for the last decade from military vicus Acidava-Enoșești lead until now to the discovery of 7 patterns for the production of sigillata vessels. These, beside the sigillata vessels manufactured here and the great number of sigillata vessels imported from western provinces proove the importance of this economic centre in pottery production and also in trade in south Dacia.*
