

UN FRAGMENT DE TIPAR DE MEDALION DESCOPERIT LA TIBISCUM – JUPA (JUDEȚUL CARAȘ-SEVERIN)

Mariana Balaci Crînguș, Simona Regep

Cuvinte cheie: *medalion ceramic, tipar, vicus*

Key words: *ceramic medallion, mould, vicus*

Abstract: *After the 2003 campaign a fragment from a medallion mould was discovered at Tibiscum. The medallion depicted a sided bearded male person looking to the left, his beard is rich and he has a distinctive nose. A helmet was placed on the head, and a lance is held in his right hand. After analyzing the fragment the conclusion was that it is a representation of Mars in military outfit, and the proper denomination is Mars Ultor.*

Mars Ultor was a creation of roman art and he was very popular amongst the troops, in castrae he become the protector of the praetorii. From the Third Century A. D. he was included in dii militares.
