Cuvinte cheie: *collegium, praefectus fabri, elită provincială, populație, viața municipală*

Key words: *collegium, praefectus fabri, provincial elite, population, municipal life*

Abstract: *After a short comparison with the situation of the praefecti collegii in Pannonia, the author presumes that in Roman Dacia, during the III century AD, the praefectus collegii fabrum from Ulpia Traiana Sarmizegetusa represented all the other collegia from the province, as a strategic centralization of the economical authority in what concerned the professional associations.*
